SUMMARY

Skilled in Python, TensorFlow, and PyTorch, with hands-on experience in building and training models, data preprocessing, and implementing neural network architectures through academic projects. Familiar with supervised learning algorithms and model evaluation techniques. Experience working with datasets, data cleaning, and developing basic ML solutions. Interested in contributing to real-world projects and continuing to build practical skills in a professional environment.

WORK EXPERIENCE

- Machine Learning Intern – Codtech, HyderabadJun 2025 – Aug 2025
- Engineered a **time-series Score Forecasting System** using Linear Regression and ARIMA models trained on 3 years of historical data, achieving a **20% improvement in prediction accuracy** across 1,500+ records.
 - Performed end-to-end **data preprocessing, feature selection, and model evaluation** using Python, Pandas, and NumPy, ensuring high-quality inputs for machine learning pipelines.
 - Delivered **data-driven ML solutions** with actionable insights through interactive Streamlit dashboards for stakeholders.

PROJECTS

- Score Forecasting SystemPython, Scikit-Learn, Streamlit, XGBoost
- Implemented **regression and time-series forecasting models** (Linear Regression, XGBoost) to predict outcomes in sports and finance, **reducing prediction error by up to 50%**.
 - Engineered features from 3+ years of historical data; built a Streamlit dashboard for probability visualization and **data-driven risk assessment**. Tuned hyperparameters via cross-validation for robust generalization.
- Restaurant Reviews Sentiment AnalysisPython, NLTK, Scikit-Learn, Streamlit
- Built an **NLP sentiment classification model** using TF-IDF vectorization and Random Forest to analyze **1,000+ restaurant reviews**, achieving **88% classification accuracy**; deployed as a real-time Streamlit web application.
 - Performed exploratory data analysis (EDA) and text preprocessing (tokenization, stop-word removal, lemmatization) to extract **actionable service improvement insights** for stakeholders.

EDUCATION

- Shobhit Institute of Engineering and TechnologyMeerut, Uttar Pradesh
- Bachelor of Technology in Computer ScienceAug 2023 – May 2027
- GPA: 8.88/10

CERTIFICATES

- | | | |
|--------------------------|---|----------|
| Cisco Networking Academy | Introduction to Data Science | Feb 2026 |
| Simplilearn | Transformer Models and BERT Model | Jan 2026 |
| Oracle University | Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Sep 2025 |
| Udemy | Complete Data Science, Machine Learning, DL, NLP Bootcamp | May 2026 |

SKILLS

- | | |
|------------|---|
| Languages | Python, Java, SQL, C, C++ |
| Libraries | Scikit-Learn, TensorFlow, PyTorch, NumPy, Pandas, SciPy, Matplotlib, XGBoost, NLTK |
| Tools | Streamlit, Docker, Node.js, GitHub, Jupyter Notebook, Git |
| Techniques | DSA, Linear Regression, ARIMA, Random Forest, TF-IDF, EDA, NLP, Time Series, Feature Engineering, Hyperparameter Tuning |
